KISINA Deco is a Canadian company that specializes in creating and marketing African-inspired decorative items. The items are manufactured in Africa and sold worldwide. The materials, designs and fabrics chosen reflect the African charm and lifestyle. The word KISINA in Kikongo (dialect spoken in Central Africa) means origin, source, strain.

The decorative cushion trios you will discover in this collection are hand-crafted by Senegalese local artisans. Each model in this collection called KIKONGO refers to a location in the Republic of Congo.
